

Video Centre

GuardPoint 10 Feature

Merge the alarm, video and access world in a single video platform. Implement security and surveillance decisions all from one screen.

Live Video: View and record the live video stream, playback previous recordings and take snapshots.

Identification: Identify the cardholder initiating the access by comparing his photo in the system to the video image.

Alarm Control: Modify the arm/disarm state of an alarm zone. Acknowledge and confirm a specific alarm, or all of them, directly from the video screen. Consult the real-time access or alarm log and restructure it by sorting criteria with drag and drop.

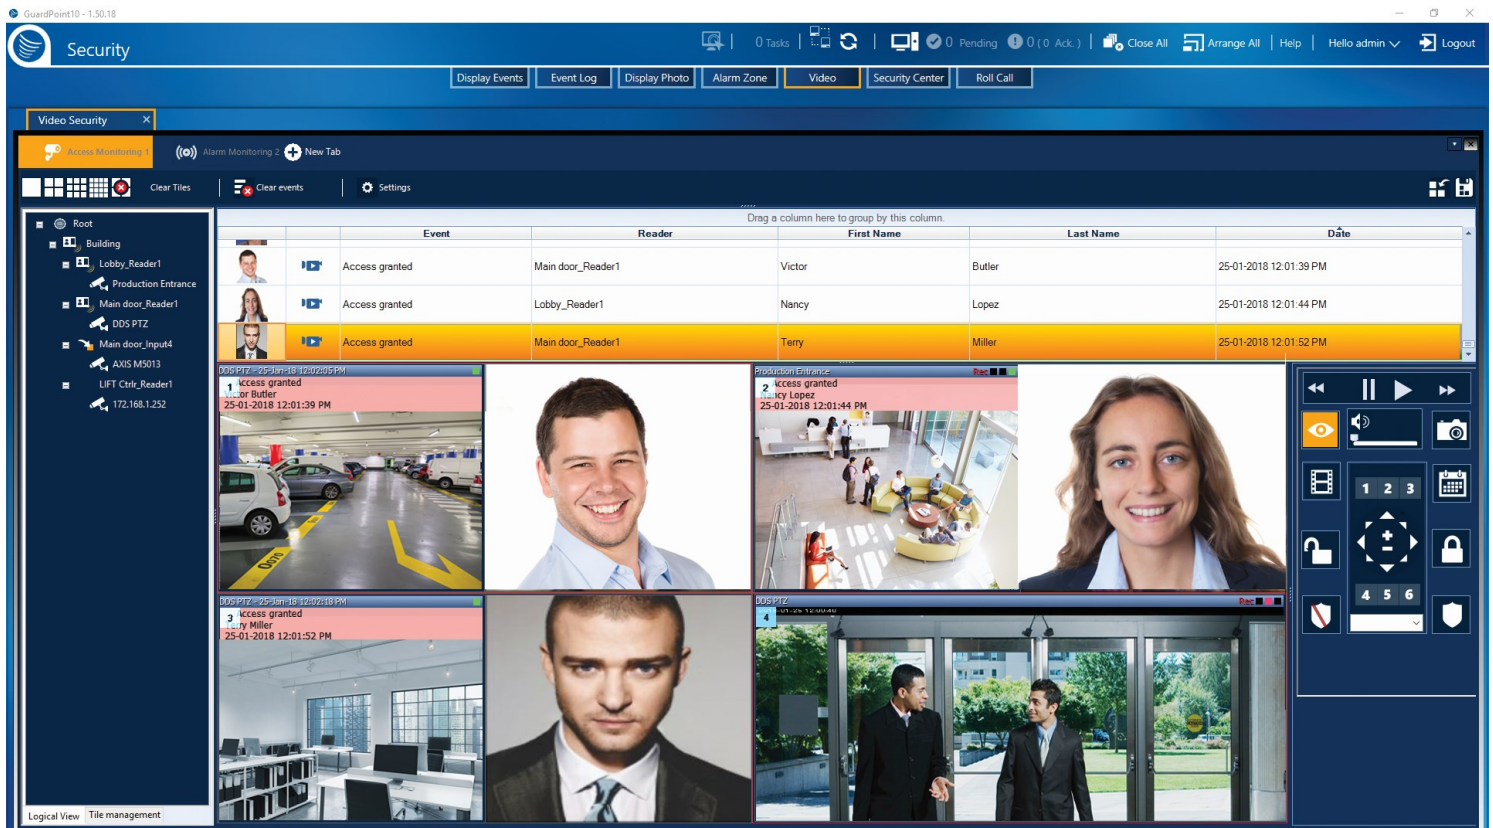

Override: Override the lock/open state of a door.

Camera Control: Point, zoom-in and focus the camera to a user-defined location to track details.

Management: All the NVR/DVR devices and system elements are represented in a logical tree view.

Integration: The video centre has integration support for Milestone, OnSSI and Hikvision systems.

The screenshot displays the GuardPoint 10 Security interface. The top navigation bar includes tabs for Display Events, Event Log, Display Photo, Alarm Zone, Video, Security Center, and Roll Call. The main area is divided into several sections:

- Left Panel:** A tree view showing the system hierarchy, including Building, Lobby_Reader1, Production Entrance, Main door_Reader1, D05 PTZ, Main door_Input4, AXIS M5013, LIFT Ctrl_Reader1, and 172.168.1.252.
- Event Log Table:** A table listing access events with columns for Event, Reader, First Name, Last Name, and Date.

Event	Reader	First Name	Last Name	Date
Access granted	Main door_Reader1	Victor	Butler	25-01-2018 12:01:39 PM
Access granted	Lobby_Reader1	Nancy	Lopez	25-01-2018 12:01:44 PM
Access granted	Main door_Reader1	Terry	Miller	25-01-2018 12:01:52 PM
- Video Grid:** A 2x2 grid of video feeds. The top-left feed shows a parking lot with cars. The top-right feed shows a person's face. The bottom-left feed shows a person's face. The bottom-right feed shows a person's face.
- Right Panel:** A control panel with buttons for Play, Stop, Pause, and other video controls.
