

Case Study-Education

Longhill High School

Client : Longhill High School
Type of System : GuardPoint PRO integrated Access Control Solution
Type of Site : Educational
System Description : GuardPoint Pro

Ray Thomson - Premises Manager

"The GuardPoint Pro software has been really simple to administer and a great success in automating functions and improving security for us"

The Client

Longhill High School is an oversubscribed School on the eastern edge of Brighton and Hove. The number of students in the school is over 1200 increasing yearly with students between the ages of 11-16. Longhill is a specialist Technology College, offering enhanced activities and equipment in Information Technology, Design Technology, Maths and Science. These new initiatives will assist Longhill in its vision of becoming a Centre of Excellence as an Information and Technology College, expanding the educational opportunities for all its students across all areas of the curriculum. Longhill aims to become the hub of a community partnership in providing a Learning Centre for the Community of Rottingdean, Woodingdean, Ovingdean and Saltdean.

The Situation

During a recent refurbishment the need to upgrade the security system became apparent, it had become important to restrict access for unauthorised personnel to ensure a safe environment.

The Solution

A GuardPoint Pro system was installed by local installer Wakefield Security. The system secures 25 doors using IC-1000 controllers and SP-Mini readers. Providing a safe and secure environment for the staff and pupils during school hours ensuring no unauthorised entrants into the building are made. The system is designed with timed free access for the students for lunch and break times.

Case Study-Education

Longhill High School

Highlights

The automation the Guardpoint Pro system has brought to the school has been a massive benefit for the school and has really reduced staff time and involvement in opening and closing the school for break times.

The Benefits

The school now have full reporting of who has been in and out of the school building and feel confident that there are now no unauthorised entrants in the building.
