EBC-1
Contactless Exit Button

The EBC-1 exit buttons are a contactless exit button suitable for most installations. Our Exit button use a capacitive rather than infrared technology.

Key Features

- Single Gang size
- Mechanical Override in case of power failure
- Adjustable sensitivity
- Back light and buzzer

The contactless style is ideal for applications when hygiene may be a problem.

The exit button can also be manufactured with alternative symbols and languages.

Technical Specification

Reader Specification

Contact Type	NC/NO jumper selectable
Contact Rating	30VDC; 1A
Output Time	From 1 to 64 seconds
Backlight	Blue, then Green on active
Read Range	~2.5 cm

Operating Specification

Voltage	10 to 24VDC
Current	150mA (max @ 12Vdc)
Temperature	-20°C to 60°C
Case Material	PC+ABS
